OTT VIDEO DELIVERY GREW TO \$12 BILLION

"I would recommend Wowza because of the expertise and accessibility of the team, the flexibility of the platform, and the ability to easily use a pay-as-you-go service through a combination of Wowza and the Amazon cloud. Being able to use the infrastructure that we had already put in place is such a big advantage, and as we continue to expand to different kinds of platforms, Wowza's multiprotocol streaming will be part of that."
