

SOLUTION BRIEF

Real-Time Streaming at Scale

Real-Time Video Streaming to a Viral Audience — On Demand

When sub-second streaming is crucial but audience size can't be sacrificed, Wowza's Real-Time Streaming at Scale feature is the way to go. Live event broadcasters can deliver interactive experiences to viral audiences in the most reliable manner possible. For those applications that have unpredictable audience sizes, our platform instantly scales to accommodate even the biggest surprises.

Achieve sub-500 millisecond latency to a million viewers.

Use Cases
